

Exercise Problem

>>Suppose, Ratan and Kumar are talking about "CORONAVIRUS".

They have decided to make a survey where some questions will be set to match the symptoms with coronavirus.

Some questions are:

Having Cough?

Having Fever?

Having Tiredness?

Having Breathing problem?

If all the answer is "yes", then gives result as "he/she may have coronavirus".

Otherwise gives result as "Don't have Coronavirus". Also count no. of Affirmative Answer.
